EAST ARLINGTON

Leon Cole of U. V. M., and a college friend paid a short visit to his parents last week.

Mr. and Mrs. R. W. Phillips, who have been visiting relatives in Rhode Island, returned home last week.

A. E. Buck and his son, Maurice, were in Gardner, Mass., and New Haven, Conn., last week on business.

Ernest Vanalstine, who is at the Putnam Memorial hospital for treatment of his injured hand is improving.

Miss Faith Groat of New York City has been spending a few days in town with her mother, Mrs. Ella Groat.

Gay M. Stone of Schenectady has been spending a few days in town with his parents, Mr. and Mrs. E. D. Stone.

Mrs. N. S. Farley and children spent a few days in Bennington last week with her mother, Mrs. H. P. Lozier.

Mr. and Mrs. Willard Barton returned Saturday from their visit to Wilmington where they had been visiting relatives.

Rev. George K. Statham, D. D., of Rutland was in town Monday to hold the first quarterly conference at the M. E. church.

News was received that James Cole student at T. C. A., had the misfortune to break his collar bone while playing ball last week.

Mr. and Mrs. Francis Merritt, who have been spending a few days in town with Mrs. Merritt's father, A. H. Robertson, returned to Keene, N. H., Monday.

Children's Day will be observed at the M. E. church Sunday, Morning subject, "Why Should Children Become Christians?" In the evening a concert will be given by the Sunday school. All are invited to attend.

The Woman's Christian Temperance union will have a health meeting in Bailey hall on Friday afternoon at 3 o'clock, daylight saving time. Miss Dora Clark, Red Cross district nurse, will address the meeting. The public is invited, both men and women.

Master Ellery Lawrence observed his fourth birthday by entertaining a few of his many friends on Thursday afternoon of last week. Games were played and refreshments of ice cream and cake served. Several gifts were received by Master Ellery on his birthday.

Mrs. N. L. Schutt, aged 62, died at Rutland Monday morning at the home of her son, C. L. Hendee. Mrs. Schutt had been a resident of this place for about 25 years. She was born in the town of Goshen and lived there and in Brandon until coming to this place. Her first husband, Isaac Hendee, died, leaving her with two children, C. L. Hendee of Rutland who survives her and Annie Hendee Shurtliff, deceased. Later she married Marcus O. Schutt, a former for Griffith and McIntyre Lumber company. They came to this place and for years had charge of what is known as The McIntyre job at the top of the mountain remaining there until the lumber was all cut. They then bought property in this village making their home here until the death of Mr. Schutt. Afterward Mrs. Schutt divided her time living here and with her son or her sisters who survive her, Mrs. Fannie Carr of Brandon and Mrs. Frank L. Douns of North Bennington. The funeral was held at Rutland at 1 p. m. and at Forestdale church, Brandon at 2 p. m. Interment at Forestdale cemetery.

To Clean Jewelry,
One teaspoonful of ammonia in a teaspoonful of water makes a good cleaning fluid for gold or silver jewelry.

Mr. and Mrs. Ernest Harrington and family, Mr. and Mrs. Mark Rice

NEURASTHENIA— NERVE STARVATION

A Disease of the Down Hearted—Practical advice on what to do.

Many a man is broken down and discouraged without having any actual disease in his organs and tissues. He has lost his grip, feels weak and nervous and everything looks dark. He is suffering from the great American disease—Neurasthenia or nerve starvation, due to over-work, worry, continual hurry and nervous strain. The longer this continues the more certain will it end in real disease of his organs, his nerves or his mind.

Such a man should live on the simple foods, eat plenty of cooked fruit and green vegetables, sleep nine hours at night if he can, an hour in the afternoon and feed his starving nerves and weak, thin blood, with a good nerve and blood food, like Nuxated Iron. Nuxated Iron contains a product brought to the attention of the French Academy of Medicine by the celebrated Doctor Robin, which represents the principal chemical constituent of active living nerve force. It also contains genuine organic iron like the iron in blood and like the iron in spinach, lentils and apples.

Nuxated Iron may therefore be said to be a real nerve and blood food since it supplies the principal ingredients demanded by your nerves and blood to give you strength, energy, force and endurance. It often increases the bodily and mental vigor of weak, worn-out, downhearted, and nervous folks in two weeks' time. Your money will be refunded by the manufacturer if it does not produce perfectly satisfactory results. For sale by all druggists.

Microscope reveals unseen weakness of tires

Minute "lumps" in rubber found to be chief cause of much low tire mileage

LOOK at the two round photographs at the right. They tell the story of one of the most important discoveries in tire-making that has been made in years.

Each circle represents a sample of tire rubber as seen under the microscope. In the upper sample, notice the large white areas. These areas represent "lumps" of unevenly mixed substances. "Lumpy" formations of this kind, it has been found, are the unseen weakness of ordinary tires.

Tires cannot be made of pure rubber gum. They would be too soft and would lack resiliency. The pure gum must be worked up into a "compound"—mixed with certain toughening agents.

Yet with ordinary rubber "compounds," these added substances do not fuse in evenly. In the process of mixing, they tend to stick together in minute "lumps"—every "lump" proving a weak spot when the tire gets on the road.

Development of rubber compound that does away with "lumpiness"

At last a rubber has been produced that reduces "lumpy" formations to a minimum—that eliminates premature tire troubles.

Experiments conducted by the Thermoid Rubber Company have resulted in the perfecting of Crolide—an even-texture rubber that does not weaken with the stretching and straining that goes on inside a tire in use. Crolide Compound is today used exclusively in the manufacture of Thermoid Tires. We have compared the Thermoid Tire carefully, point by point, with other tires on the market today, and we confidently believe that no other tire compares with it for service and durability.

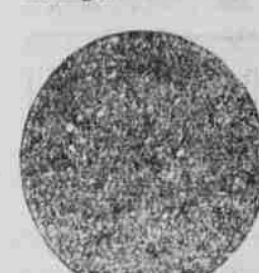

You are invited to call and see these new tires for yourself—also the famous Crolide Compound Tubes.

Drawings made from actual photographs of rubber magnified 200 times

Ordinary tire rubber
The white areas are "lumps" of unevenly mixed substances. Every "lump" is a weak spot that reduces mileage.

Crolide Compound Rubber
—has no large "lumps." Notice how finely divided the particles are. This even texture is what makes Thermoid Tires wear so long.
